

Jesse Wilkerson's poignant story of "A Christmas That Was" gives some dimension to this holiday when, though at war in Southeast Asia, we enjoy the highest standard of living at home.

Most of us, that is.

The day was when we didn't. The day is that we do.

A handsome Christmas card from Takahiko Kubo, the exchange student here last year, reminds of the closing dimension of East and West in a more peaceful way. He is now home in Japan.

The menace of poverty and war, of famine and death is large at any Christmas, but somehow softer for a few moments that day. It continues to have no bounds.

107-107-107

There is need for laughter, children's laughter at Christmas.

And as those children grow, their younger laughter lifts long over the years, knowing more the tears of frustration than tears of joy, finding a breath of difference between joy and sadness, success and failure, a cry of glee and a cry for help.

That is one why for Christmas. Man, at one time, can't handle his immense environment. From Himalayan height to Atlantis depth, though he has been there or has managed great stride, he is snuffed out, but for generation next.

He has to go back to a beginning. Christmas is a beginning.

A Christmas revisited inspires the wider step from the cradle, or the Manger, even into space beyond the reach of man.

But not his mind. He learns more of less, and the preponderance of less is a vastness itself.

So he comes back to a beginning, his Christmas, and cherishes what he seems compelled to forget, in the day to day, and cries for and laughs at, not knowing a real difference, his innocence and ignorance, a standard of living and earlier poverty he perhaps cherishes more.

Christmas is a magnitude of all these things, and hardly tinsel, "incense or myrrh." It is neither old or new. It is.

New Wildcat Set South Of Milano; Permit To 3,024

Milam County gained another wildcat last week when the J. M. Huber Corporation of Houston scheduled their No. 2 H. H. Coffield Unit to be drilled on a 40-acre tract six and one-half miles south of Milano.

Location for the new wildcat will be 100 feet southwest of the company's No. 1 H. H. Coffield unit which was plugged last month after being drilled to 3,024 feet. The 40-acre lease is in Henry Martin Survey and near the Burleson County line.

The No. 2 H. H. Coffield Unit is permitted to 3,500 feet.

In eastern Milam County the Shell Oil Company No. 2 Adoue Estate, deep Smackover wildcat, was drilling ahead and was at 11,581 feet on Monday. This was 316 feet deeper than it was on Friday of last week, when crews reported changing drilling bits at 11,265 feet.

The wildcat, permitted to 16,000 feet, is Shell's third try to hit the oil-rich Smackover on their lease block in eastern Milam County.

'Live Longer Drive Safe Holiday

Services Planned For Christmas Eve

Christmas eve services are planned in two Cameron churches Saturday night.

All Saints Episcopal Church will have a special service at 9 p.m. Saturday. Rev. David Erskine said the public was invited to the service of Christmas music and prayer.

Midnight Mass will be celebrated at St. Monica's Catholic Church on Christmas eve.

First Methodist Church will have a worship service at 10 a.m. Sunday, Christmas day, and regular Sunday services are planned at most other Cameron churches.

Rites Wednesday For Mrs. Viola Roberts

Mrs. Viola McClaren Roberts, 66, died Sunday night in Plainview. Funeral services were held at 3 p.m. Wednesday at the Marlow Baptist Church and burial was in the Marlow Cemetery.

Surviving are her husband, Tom Roberts of Plainview; four brothers, S. W. McClaren, Hubert McClaren, Lawrence McClaren and Max McClaren, all of Cameron; four sisters, Mrs. Gladys Pyeat of Memphis, Texas, Ema Jean McClaren and Sue McClaren, both of Cameron, and Lucille McClaren of Waco.

Officials Urge Highway Caution

Cameron and Milam County are preparing for a traditionally quiet Christmas, except for rush of holiday traffic through major Milam thoroughfares.

City, County and State officials urge "Live Longer" and safe driving over nine-day holiday, beginning officially at 6 p.m. Friday for Christmas.

Texas Department of Public Safety begins watching its "Countdown Board" which predicts 47 highway deaths by 11:59 p.m. Monday.

The predicted toll for the New Year's weekend is 38.

URGE SAFE DRIVING

The DPS is going "all out" in order to limit the anticipated traffic death toll. State Patrolmen Leroy Broadus and Milton Wright urge Milam County drivers to join in state-wide efforts to hold traffic accidents to zero.

Police Chief Frank Chapman said two patrol cars would be working holiday traffic through Cameron.

He said special effort was going to be paid to speeding, running stop signs and passing in "no passing" zones.

A collision at 4:40 p.m. Monday involved vehicles driven by Mrs.

Mary Vena Valdez and Jim Perkins, both of Cameron.

Chief Chapman said Mrs. Valdez was going south on Crockett across W. Fourth St. while Perkins was making a left turn west onto Fourth St. (SH 36). Damage to Mrs. Valdez' 1964 Chevrolet was estimated at \$439 and to Perkins' 1965 Ford at minimum damage.

At presstime, no report on traffic accidents on Milam highways had been received.

WATCH THE BOOZE

Officials of all traffic law enforcement agencies warn against drinking intoxicants and driving.

"Too many drivers take a dare-putting themselves above the law and placing their passengers in unnecessary danger," one official said.

Drivers were challenged to accept a moral responsibility to conduct themselves in a safe manner and to "Be thy brother's keeper."

Earlier in the month, Governor Connally had proposed the possibility of a \$1 billion education program in Texas to curtail the highway slaughter that increases each holiday and year.

Cameron schools began a two-week holiday Wednesday as did all other county schools.

SPEAKER BARNES -- House Speaker Ben Barnes addresses a joint session of Rockdale and Cameron Rotarians. His speech dwelled on Texas needs in major areas of legislation coming before the 60th Texas Legislature in January. State Rep. Milton Schiller, Rotary program chairman for the day, just behind the podium, introduced the Speaker. At left is Dr. Howard Smith, former Rotary governor from Marlin, and at right, is Frank Luecke, Cameron Rotary president. Rep. Schiller also introduced a number of legislators at the bi-city Rotary meeting also attended by Cameron Lions at Cameron Methodist Fellowship Hall.

The research and promotion proposal carried by 67.9 percent of the total vote, and by about 70 percent of the Texas cotton producers. It carried by 72.62 percent in Milam County.

A Christmas That Was

By Jesse Wilkerson

This is a true story of a Christmas in Cameron, many, many years ago.

It was very cold that Christmas morning, but the alarm clock went off as usual. For several moments, the little newsboy lay in his bed, reluctant to crawl from beneath the warmth of the blankets. But he knew he had a job to do, and that he must get up. He sprang from the bed and with haste put on all the clothes he possessed. As he dressed, he shivered from the coldness of his little room.

Daylight was several hours away, when he left the house to get his horse from the stall in the barn. The boy thought the horse looked at him with reproving eyes for being disturbed in the wee

hours of that cold morn.

"I'm sorry to take you out in this cold," the boy said, as he saddled the horse. He stroked the horse's head, and confided: "Even though it's Christmas, you know we've gotta deliver the morning paper."

He rode along the deserted streets, feeling the calm and peaceful silence of the Christmas night. It had snowed the day before and the ground was covered by a white blanket. During early night, the snow stopped, the skies cleared and the stars glittered. From the west, a full, yellow moon hung low from the heavens, casting a pale light of creamy softness over the fallen snow.

"It's a beautiful Christmas morning," the boy said to the horse.

"But I guess you'd rather be back in that warm stall."

Arriving at the railway station, he tied his horse to the hitching post and went to the waiting room to get his papers brought in by the midnight train.

Only a few red coals remained in the wood stove, but the now darkened waiting room was warm and comfortable.

"I'll just stay here for a few minutes and get warm," the boy said to himself as he sat on a bench near the stove. And he napped.

Moments later, the boy woke with a start. Grabbing his papers he rushed outside. He felt ashamed for falling asleep, while his horse waited in the bitter cold. SEE CHRISTMAS Page 2

CHRISTMAS —

Continued From Page 1
"I'm sorry I was so long in coming back," he said to his horse. "But we'll get moving and you won't feel the cold so much."
He delivered his papers from house to house as dawn brightened. Through the windows he saw the glowing flames of the fireplaces. The candles were lighted on the Christmas trees. Soon, he knew, the children would awaken and rush to see what Santa had left them.
He was near the end of his route when a lady appeared at her front door.
"Merry Christmas," she shouted. "My," she added so kindly, "you must be cold. Won't you come inside and have some hot chocolate and cake?"
"Thank you, mam," said the boy, "but I've got my papers to deliver. People will be waiting for them."
"Shucks," said the kind lady, "let them wait. This is Christmas." The thought of fruit cake and something warm to drink was so tempting he could not decline. He

tied his horse at the yard gate. He was warmly greeted by the kind lady's husband. The front room was warm from the glow of the fireplace. Lighted candles flickered on a large Christmas tree, gaily decorated with paper ribbons and popcorn strings. Two boys and a girl were on the floor, playing with their presents.
When the newsboy finished the cake and hot drink, the children asked him to see their presents. They showed him how to play with their new games. This was a wonderful Christmas.
Later, the good lady gave the youngster a paper bag filled with fruits and candy. Each of the children gave him one of their Christmas presents. One was a little book that he would read many times and long remember.
The boy had sold all his papers and found that he had just enough money to buy himself a Christmas present. It was a baseball glove he had seen in a store window. As he went along the streets, the chimas in a church were playing "Silent Night."
Standing on a street corner, he saw a blind man, poorly clad with his coat collar turned up to ward off the cold. In his hand he held a tin cup. Late Christmas shoppers rushed by, seeming not to notice the poor man.
Something caused him to pause by the blind man. Without a moment's hesitation, the little newsboy reached into his pockets. In his hands were all his earnings. The nickels and pennies tinkled musically as he dropped them into the tin cup.
"Thank you," said the blind man. "Merry Christmas and may God bless you."

R Expectant Mothers And
Babies Need Vitamins

Medical authorities and public health agencies are in agreement about the need of vitamin supplements for expectant mothers. They also state that babies should take special vitamin compounds to help their growing bodies. These vitamins are one of the reasons for reduced infant mortality.

But the proper dosage and formulae required are so important that a physician should be the only one to choose which ones expectant mothers and infants should take. Therefore, physicians specify the particular dosage and brands they believe will help most. We carry them in stock and advise you to take no other.

Budget Board Connally Differ

By Vern Sanford

Massive state governmental spending proposals - each ranging around the \$4,500,000,000 mark overall for the next fiscal period - are on their way to Texas legislators.

Legislative Budget Board unveiled its 1968-69 budget recommendations last week, followed a few days later by the somewhat-larger appropriations request of Gov. John Connally.

LBB calculated spending approved by board members would come to some \$4,400,000,000 - \$334,900,000 from general revenue over which the Legislature has direct control.

Connally's budget suggestions topped \$4,600,000,000 - \$911,400,000 in general revenue.

Present all-funds spending (including federal aid and earmarked categories such as for highways, schools and welfare) is \$3,900,000,000 - \$621,500,000 in general revenue.

Board's proposals could be financed easily without resort to new taxes.

Connally's would require some \$64,400,000 in additional revenue, according to his projections of \$847,000,000 income - \$782,600,000 more according to the LBB income estimate. But the governor almost certainly will recommend some additional spending in his message to the Legislature.

Here's a capsule comparison of the general revenue budgets:

Education: (Present) \$342,200,000; (LBB) \$469,400,000; (Connally) \$496,300,000.

Public health, hospitals and youth institutions: (Present) \$149,500,000; (LBB) \$206,500,000; (Connally) \$214,700,000.

Departments and agencies: (Present) \$111,000,000; (LBB) \$139,300,000; (Connally) \$176,300,000.

Judiciary: (Present) \$12,400,000; (LBB) \$12,700,000; (Connally) \$13,100,000.

Legislative expense: (Present) \$6,400,000; (LBB) \$6,900,000; (Connally) \$7,400,000.

DRINKS CAMPAIGN ON

A statewide Citizens Committee for Tourism and Regulated Sale of Mixed Drinks has organized and is opening an Austin office.

Dallas lawyer Shannon Jones is temporary chairman and Houston lawyer and realtor Charles L. (Sonny) Sowell is legislative counsel.

In a press conference here, they announced plans to push for legislation to authorize sale of mixed alcoholic beverages on local option basis in wet areas. Campaign is pegged on drive for tourists and convention business and need for additional state revenue. Sowell and Jones said a 10-cents-a-drink tax would yield \$80,000,000 in the next two years.

Support soon came from an unexpected source. Rev. R. W. Jablonowski Jr. said he intends to testify for the bill because he feels states where liquor is sold by the drink have less alcoholic consumption and less public drunkenness. Texas Council of Churches likely will take no stand, a headquarters official said, because it is "split down the middle" on the issue. Its legislative statement of policies says the organization opposes any change in law which would encourage increased liquor consumption.

OIL PRODUCTION BOOMS

Railroad Commission boosted January oil allowable to a near-record 37.5 percent of potential.

Factor would allow 3,318,234 barrel-a-day production. This compares to 3,206,044 daily under the 36.5 percent order for December which was the biggest since May, 1959.

OLD PHILOSOPHER

Old Philosopher Comes Out With Brand New Idea For Double Coverage Of Football

Editor's note: The Old Philosopher on his Johnson grass farm on the Yegua discusses football this week. We didn't know he knew anything about it.

Dear editor:
Professional football is a little out of my line, but since nearly everything else is too and I don't let that stop me, I thought I'd make a suggestion to the National Broadcasting Company. Surely one of them subscribes to The Cameron Herald.

According to an article I read in a newspaper last night, the two companies, couldn't decide who's going to televise the Super Bowl, the game for the world championship between the two professional football leagues about the middle of January. NBC has been televising one league, CBS the other, so they agreed they'd both televise the Super Bowl, and a viewer with two channel choices could take his pick.

This is all right, it shows a fine spirit of compromise and financial shrewdness, but it misses a golden opportunity to boost the rest of the economy by a few billion dollars, plus developing a brand new idea in televised sports.

The idea is, instead of each network televising the game in the usual manner, why couldn't NBC concentrate its camera on the offense, CBS its camera on the defense?

This obviously would require two television sets in your living room, sitting side by side. At the kickoff, one set would show the right half of the field as the kicker approached the ball, the other would show the left half, where the receiving team awaited. As the play got underway, your eyes would move from one set to the other, you'd have a full view of the entire field instead of a close-up of a quarterback, and throughout the game you'd continue to have unlimited vision, the same as if you'd paid \$12 to get in the stands. You could watch the quarterback fade back to pass and at the same time look over to the other set and watch the receivers running their patterns downfield. Only one set of announcers would be needed but that's all right, they talk too much anyway as it is.

Now this would require everybody to have two sets, but since we still have nearly three weeks to get them bought, that's plenty of time, and you can imagine what it would do to the economy to have at least 30 million new TV sets bought between now and January 15, even on credit. What's wrong with buying a second set on credit? That's the way the first one was bought.

Yours faithfully,
J. A.

May we merit your good will for many years.

If you're about to buy a

CENSORED or a CENSORED and can't get these options ...look at Ford before you leap!

Because if you want all these features in one car, you've got to want a '67 Ford. Your Ford Dealer can give you the uncensored story. But here's an idea of what Ford offers.

SelectShift Cruise-O-Matic transmission really gives you two shifts in one. It shifts automatically or lets you shift manually. That way you can pick the right gear to suit road conditions or just shift for fun (standard on XL and LTD).

The strongest, quietest, best built Fords in history offer you a variety of exclusive features to make your driving easier and more enjoyable. Like doors that lock automatically and Comfort-Stream Ventilation that exhausts stale air with windows closed. Add to this Ford's durability and famous quiet ride, and you've got a lot of good reasons to visit your Ford Dealer before you buy any new car.

Quieter because it's stronger...stronger because it's better built

Christmas 'Cheer' Blamed For Many Fatal Traffic Accidents

AUSTIN — Planning a happy holiday? Then, don't take on traffic.

The Texas Safety Association today warned drivers that "too much cheer" makes a deadly cocktail when mixed with today's complex traffic.

J. O. Musick, TSA General Manager, reports that national studies show 55 percent of the Christmas season's fatal traffic accidents involve drinking drivers.

Last year, there were 720 persons killed in the U. S. during a three-day Christmas holiday period.

"This is a needless loss of life," Musick said. "And, much could be done to reduce such tolls, if we could convince drivers of the dangers of drinking and driving."

"Most drivers do not realize how much their driving abilities are impaired. Some drivers may even be affected after only one drink. It is essential that drivers know their state of impairment and the increasing accident risk that accompanies each additional drink."

Here are some facts about alcohol that all drivers should know:

Alcohol is not a stimulant and is classified medically as a depressant.

Even small amounts of alcohol tend to reduce judgment, self-control and driving ability.

Loss of judgment and the capacity of self-criticism occurs before obvious symptoms of intoxication.

Coffee and other stimulants will not offset the effects of alcohol. Only time can eliminate alcohol from the blood stream.

It takes at least three hours to oxidize (eliminate) one ounce of pure alcohol about two cocktails.

Two cocktails (about 0.4 percent of alcohol in the blood) may reduce visual acuity as much as wearing dark glasses at night.

You do not have to be obviously intoxicated to be "under the influence" and an unsafe driver.

The safety director also reminded drivers that the combination of alcohol and some drugs may produce greater impairment than if either is taken separately. Make sure no hazardous side effects might occur from taking medicines whether separately or with alcohol.

In concluding, Musick urged all holiday celebrants to stay out of the driver's seat for total safety.

"It's not worth the risk you take, if you don't," he said.

Alcohol Impairs Driving Ability

The Texas Safety Association reminds holiday celebrants that alcohol can impair driving ability. The more alcohol there is in the blood, the longer you must wait until you can drive safely. On the average, it takes one hour for each bottle of beer or each ounce of whiskey to be absorbed by the body. Even if you seem able to hold your liquor -- extensive research studies show your driving ability is greatly impaired during this period.

Check Wiring on Tree Lights

The Texas Safety Association warns homeowners that faulty wiring on a combustible-type tree can result in a fire. To avoid a tree fire keep light sets in good repair. Discard all frayed and worn sets before a short circuit develops. Use tree lights and wiring bearing the label of an independent testing laboratory. Make sure that the fuse of the electric circuit serving the tree is not over 15 amperes. Turn off tree lights when retiring or leaving the house.

Alcohol Affects the Brain

What does alcohol do in the brain? The Texas Safety Association says: First, it depresses the area of higher functions, which includes judgment and social restraint. Next, it attacks the simple motor functions -- reaction time and vision. Balance, coordination and sensory perception are the next faculties to be impaired. Concentrated drinking will eventually lead to stupor, coma, and even (if continued steadily) death! Studies show drivers do not have the judgment and reflexes to perform the mechanical functions of driving safely -- even after a few drinks. If you drink ... don't drive!

Windows let in light.
Even at night the cool, crisp glimmer of the
winter moon can make a path of silver across a
darkened room.
And when we set a light in our window, its
warm, joyous glow tells others of the brightness
within.
Christmas is a window, letting the soft white
light of God's love make a path for men across
their world.
And when by our worship we light this window
ourselves, then those who hear our carols are drawn
to the warmth and joy of our faith.
Join fellow Christians the world over in the
glowing Christmas services of our churches.

**Christmas
IS A
WINDOW**

**THE CHURCH FOR ALL
ALL FOR THE CHURCH**

The Church is the greatest factor
on earth for the building of charac-
ter and good citizenship. It is a store-
house of spiritual values. Without a
strong Church, neither democracy
nor civilization can survive. There
are four sound reasons why every
person should attend services regu-
larly and support the Church. They
are: (1) For his own sake. (2) For
his children's sake. (3) For the sake
of his community and nation. (4)
For the sake of the Church itself,
which needs his moral and material
support. Plan to go to church regu-
larly and read your Bible daily.

THE FAMILY LAWYER

Williams decided he did not need that air conditioning system for his office after all. But the manufacturer insisted.

"You have already confirmed the order."

"It is true that I marked an 'OK' on the order form," conceded Williams. "But that is not legally binding. 'OK' is just an abbreviation, not formal enough for a written contract."

Nevertheless, in a court test, the judge held Williams bound by his agreement. The judge said that, if "OK" is not elegant English, its meaning is clear - and clarity is what counts.

By and large, the law takes a tolerant view of abbreviations. For the purpose of language, whether formal or informal, is communication. If the abbreviated form succeeds in that purpose, then the law is usually satisfied.

Thus:

a receipt by a bank president was held valid, even though he designated himself as "pres."

a promissory note signed "W. G. S." was held valid, because it was clear whom the initials stood for;

and "3-7-54" was held a sufficient substitute for March 7, 1954, in establishing the date of a transaction.

What about nicknames? They, too, are generally acceptable if there is no doubt of identity.

For instance, a bequest to "my dear Joe" was upheld when there was only a single Joe whom the deceased could possibly mean. "Jack" has been held an acceptable substitute for John, and "Geo" for George.

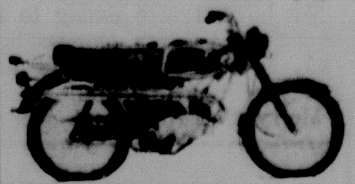

But a short form that leaves room for doubt can be costly. "Emma" was held too different to pass for Emily, and so was "May" for Mary.

In one case, a man who sold a truck used a three-letter abbreviation on the bill of sale to identify the model. But he failed to add the model year. The buyer later sued him, successfully, on the ground that he had not been properly informed as to what model he was getting.

Writing down the year in the first place, instead of just the abbreviation, would have taken the seller about three seconds. The litigation took three years.

How Correct is Your Christmas Card Etiquette?

By Jane Sherrod Singer

Christmas is a time of good will. The meaning of the Season is of utmost importance. There is no place for petty criticism. A gift or a card should be accepted in the spirit it was given and not criticized. HOWEVER, when small details are perfect so much the better, and it's all a matter of good taste and careful thought. Check yourself on these statements.

- | | TRUE | FALSE |
|---|------|-------|
| 1. Cards should not be sent to people who are in mourning. | () | () |
| 2. It is quite acceptable to send cards in open envelopes as printed-matter mail. | () | () |
| 3. Christmas cards from people to whom you did not send a card should not be acknowledged. | () | () |
| 4. Greeting Cards should be mailed so they will arrive just a day or two before Christmas. | () | () |
| 5. Christmas cards should be displayed prominently in your home. | () | () |
| 6. The wife's name should appear with her husband's on his business Christmas cards. | () | () |
| 7. The names of all children should be included in the signature on cards. | () | () |
| 8. Single women, divorcees and widows should prefix their names with Miss or Mrs. when signing their cards. | () | () |

ANSWERS

- FALSE: People who are in mourning especially appreciate being remembered. Avoid verses and scenes that show merry-making and most desirably, add a personal handwritten message, words of warmth, being careful not to reopen the wound of loss.
- FALSE: It is better to send fewer cards and send them by regular mail, with a handwritten note. (Here it is where the spirit of Christmas is more important than a postage stamp.)
- FALSE: Cards should be acknowledged by phone, when you meet the person again, or in a note written on a New Year's card.
- FALSE: The most thoughtful gift you can give the overworked postal employees is to mail cards before December 15th for cards within your country and by November 15th for cards overseas. Too, cards that arrive early are enjoyed longer than those which pour in at the last moment or arrive when you are eating the last of the Christmas leftovers.
- FALSE: A grand display of cards may seem ostentatious, a show of how many you received. They should be kept as a part of the Christmas scene, perhaps in a bowl if guests wish to thumb through them, or tacked on a screen in the family room.
- FALSE: Only the husband's name should appear on business Christmas cards unless his wife works with him or knows the recipient socially.
- FALSE: Only children who are old enough to know the meaning of Christmas should be included. Most desirable of all, when a child is old enough to write, he should send his own cards. Greeting cards made by children are especially treasured.
- FALSE: No marital status should be shown.
